

ENPM685 Homework #7 – Incident Response

Version 2.0 – April 17th 2022

Estimated time to complete this assignment: 4 hours

Complete Online Splunk Training

If you do not have much experience with Splunk this is a great way to quickly get up to speed, as well as something to add to the resume/cover letter/fun facts to discuss during an interview. These are self-paced so it is quite likely that you will complete them in less time.

1. If you don't already have one create an account on Splunk.com (I recommend using your @umd.edu E-mail address for creating this – there is a strong likelihood that Splunk will soon offer additional free training for higher education users so registering with your @umd.edu will enable you to take advantage.)
2. Go to the following links and register to for each one of these, use the eLearning option which is free:
 - Intro to Splunk (45 minutes) - https://www.splunk.com/en_us/training/courses/intro-to-splunk.html
 - Using Fields (1 hour) - https://www.splunk.com/en_us/training/courses/using-fields.html
 - Visualizations (1 hour) - https://www.splunk.com/en_us/training/courses/visualizations.html
 - Intro to Dashboards - (1 hour) https://www.splunk.com/en_us/training/courses/introduction-to-dashboards.html
3. Complete the courses.
4. Submit the Certificates of Completion as proof you completed the courses.

Deliverable:

Option A: Submit the Certificates of Completion for each of the Splunk eLearning classes you have completed.
